## Welcome To Spring

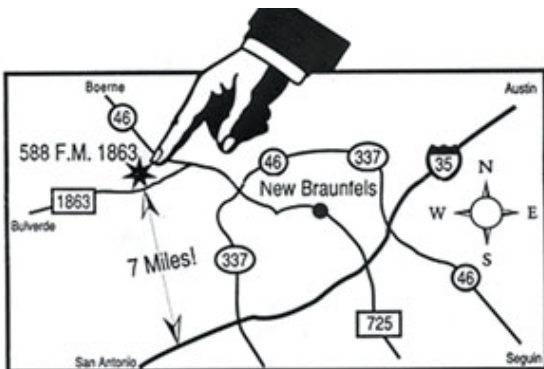

### March 1st At Schumacher's

Ready or not, rain or shine, on March 1st we put our plants out in quiet defiance of a last freeze. We can't wait any longer. Though Texas weather is unpredictable, a few sunny days this time of year will always predictably bring new life to both plants and people. This is the best time of year as we anxiously await in both people and in plants to see "old and new friends and faces."

### Plant Availability

We have successfully brought new life to an old nursery and have grown way more new plants than we can handle. We can't pot anything fast enough. Every week we need three times as many pots and three times as much potting soil as the week before. We will be getting in plants from other growers but we are concentrating on growing the plants that we grow best. We're hoping that if we don't have every plant that you want, we just might have a few that you need.

### Our Location

We're located one mile off State Highway 46 on FM 1863.

### Hours of Operation

Tuesday through Saturday from 9 AM to 5PM  
 Closed Sunday and Monday

### Landscape Packages

Complete the landscape you've been dreaming about with a landscape package that gets all the plants you need at discounted package price. Details available at the nursery.

### Deer Resistant Plants

We find that deer resistant plant lists are not read by deer. Deer have developed sophisticated eating habits and menus vary from location to location. Anything newly planted gets their attention though later may be left alone. Extremely aromatic plants like some of the culinary herbs are almost deer proof. Our best recommendation is to look around your neighborhood and see which plants are doing the best, which plants you like the most, and how your neighbors have solved the landscaping challenges you have at your house. Look at what is doing well in shade, in sun, in dry soil, and so on. Imitation is the best compliment you can make.

### Propagation Classes Offered

WHEN: Saturdays March 3rd, 10th, 17th, 24th, and 31st.  
 HOW: Email us, call us or sign up in person

### We Recycle Plastic Pots

Please bring used plastic pots 1 gallon size or larger and drop them off at the nursery. We don't care where they came from. They belong here rather than in the landfill. We hate

spending money on plastic pots.

### A Place Where People and Plants Can Grow

Schumacher's Nursery would not exist without the physical and spiritual support of so many people. You might think that we are here because the nursery grows lots of plants that people want. We know that we are here because the nursery and the plants grow so many people.

### Positions Available

Experienced Nursery Sales Manager.  
 Experienced Sales Person.
