

HILL COUNTRY GARDENS

"Weeds to Roses"

SCHUMACHER'S

We are winding down the summer drought and high temperatures with the beautiful rains most of us have experienced. Yeah, we are thankful for that, and looking forward to more fall temperatures, and with that the welcoming of our gardens to us to get back out there. You may need to replace some of those things that just had a hard time surviving water rationing and the historic temperatures we have had. And, this is a good time to do that because, we are having a terrific sale.
